## ABOUT MONARCH LABELERS

Red "touchpoints" are incorporated throughout the labelers to help guide the user through important tasks such as loading, clearing jams and removing the ink rollers.

Instructional videos are easily accessed by scanning the QR code conveniently located on the labeler.

Most labelers take about 75% less time to load labels and roughly 97% less time to change ink rollers than other similar labelers on the market.

Made in the USA from practically indestructible ABS plastic and drop tested to ensure they'll last for decades.

All of our labelers are covered by a one-year warranty and we also offer 48-hour turnaround repairs on all labelers.
