

Brand Protection and Security

Avery Dennison® Plastic Staple® ST9500™ System

Elevating Brands and Accelerating Performance Throughout the Global Retail Supply Chain

Elevate Brand - Brand Protection and Security

Elevate brands through innovative identification solutions that enable designers, improve manufacturing quality and efficiency, and increase consumer appeal and perceived value.

High Volume Ticketing and Denim Whiskering

The ability to perform innovative applications means the ST9500 Solution does more to help you meet the needs of today's retailers and their customers. Ideal for high-volume ticketing, our Plastic Staple System also easily handles a range of garment processing challenges.

Innovative Tagging and Garment Processing

- High volume tagging of jeans, trousers, tailoring and infant wear
- Attach pocket flashers, waistband tickets and joker tags
- Create in-process wash effects like “denim whiskering”
- Pair and package dress socks

Increased Speed, Efficiency and Flexibility

Easily adapted to a wide range of applications and fabrics, the ST9500 is designed to be low maintenance, while providing fast, consistent ticketing with fewer work delays.

Tickets Stay Neat and Secure

Tickets stay in place until removed by the consumer, which means fewer returned garments due to damage caused by ticket removal.

Professional Appearance

Pocket flashers and waistband tickets look more appealing than thread bar tacks and metal staples, thanks to consistent ticket presentation.

Higher Customer Satisfaction

- Plastic Staples are easy to remove by hand, with no risk of fabric damage
- Safer than thread bar tacks, without the need for scissors
- Much safer than metal staples due to no sharp edges

Elevating Brands. Accelerating Performance.
